SUBJECT INDEX

4′6-diamidine-2-phenylindole for the evaluation of lymphocyte blastogenic response, Application of the fluorometric DNA quantitative assay using 331

α_2 adrenoceptor binding sites in the spinal cord of the sheep, Autoradiographic localisation of 382

Access to the encephalic ventricles in the Friesian cow: a new surgical approach 264

Acyclovir on the replication of turkey herpesvirus and Marek's disease virus, Effect of 334

Adrenal function testing in the cat: the effect of low dose intravenous dexamethasone administration 260

African swine fever, Arachidonic acid metabolites in the pathophysiology of thrombocytopenia and haemorrhage in acute 387

Amoxycillin after intravenous, intramuscular and oral administration in homing pigeons (*Columba livia*), Comparative study of ampicillin and 343

Ampicillin and amoxycillin after intravenous, intramuscular and oral administration in homing pigeons (*Columba livia*), Comparative study of 343

Analysis by ELISA and Western blotting of antibody reactivities in cattle infected with *Mycobacterium paratuberculosis* after absorption of serum with *M phlei* 140

Antigenic diversity in *Babesia divergens*: preliminary results with three monoclonal antibodies to the rat-adapted strain 96

Application of the fluorometric DNA quantitative assay using 4′6-diamidine-2-phenylindole for the evaluation of lymphocyte blastogenic response 331

Arachidonic acid metabolites in the pathophysiology of thrombocytopenia and haemorrhage in acute African swine fever 387

Aujeszky's disease: comparison with one or two doses of attenuated vaccines in pigs with high maternal antibody titres, Intranasal vaccination of pigs against 12

Aujeszky's disease virus infection in pigs 170

Autoradiographic localisation of α_2 adrenoceptor binding sites in the spinal cord of the sheep 382

Babesia divergens: preliminary results with three monoclonal antibodies to the rat-adapted strain, Antigenic diversity in 96

Bluetongue virus for British sheep, Virulence of 24

Bovine ocular squamous cell carcinoma: superoxide dismutase and catalase levels 68

Bovine virus diarrhoea-mucosal disease virus on salmonella infection in calves, Effect of 213

Bronchoalveolar lavage of the live anaesthetised sheep 109

Calcium mobilisation by dairy cows at parturition, Influence of a deficient supply of magnesium during the dry period on the rate of 101

Camel, Thyroid hormones, cholesterol and triglyceride levels in the 418

Capripox infection in sheep and goats, A single vaccine for the control of 53

Cartilage thickness measurement in foals 35

Changes in LC_{50} in an in vitro egg development assay during the patent period of *Haemonchus contortus* in sheep 413

Characterisation of *Escherichia coli* strains associated with canine urinary tract infections 404

Clostridium botulinum C2 toxin in the pheasant and chicken, Fluid accumulation in the ligated intestinal loop and histopathological changes of the intestinal mucosa caused by 349

Clostridium perfringens epsilon toxin by ELISA, Detection of 255

Comparative study of ampicillin and amoxycillin after intravenous, intramuscular and oral administration in homing pigeons (*Columba livia*) 343

Comparative virulence of some English strains of *Haemophilus pleuropneumoniae* serotypes 2 and 3 in the pig 187

Composition of a polysaccharide from mycoplasma (F-38) recognised by antibodies from goats with contagious pleuropneumonia 175

Concanavalin A-induced cutaneous reaction in the chicken, Pathology of 365

Cooperia oncophora infections in calves, Pathophysiological and parasitological studies on 373

Copper in the liver of sheep, Histochemical study of the accumulation of 73

Copper loaded sheep: a histochemical study, Effects of intravenously administered tetra-thiomolybdate on the distribution of copper in the liver and kidney of 154

Copper stores in cattle, Safety and effectiveness of cupric oxide particles for increasing liver 224

Copper stores in sheep, Safety and effectiveness of cupric oxide particles for increasing liver 219

Cowdria ruminantium: attempts to demonstrate persistence of the organism in mice immune to the Kwanyanga stock, Observations on mouse-infective stocks of 65

Cross reactions between porcine, bovine and ovine interleukin-2 preparations 252

Cupric oxide particles for increasing liver copper stores in cattle, Safety and effectiveness of 224

Cupric oxide particles for increasing liver copper stores in sheep, Safety and effectiveness of 219

Demonstration in live chickens of the carrier state in infectious laryngotracheitis 407
Demonstration of antibodies to *Eimeria* species in lambs by an enzyme-linked immunosorbent assay 19
Deposition and clearance of radiolabelled monodisperse polystyrene spheres in the calf lung 82
Detection of *Clostridium perfringens* epsilon toxin by ELISA 255
Development of an enzyme-linked immunosorbent assay for the detection of phenothiazine tranquillisers in horses 415
Dexamethasone administration, Adrenal function testing in the cat: the effect of low dose intravenous 260
Dictyocaulus filaria, Serum lactate dehydrogenase: clinical significance of alterations in its activity in lambs infected with 127
Diminazene aceturate, Ejaculate characteristics of sheep infected with *Trypanosoma brucei* and *T vivax*: changes caused by treatment with 1
Duck hepatitis virus: adaptation of a plaque assay to determine 50 per cent points with duck sera 167

Effect of acyclovir on the replication of turkey herpesvirus and Marek's disease virus 334
Effect of bovine virus diarrhoea-mucosal disease virus on salmonella infection in calves 213
Effect of *Haemaphysalis punctata* infestation on growing lambs and rabbits 244
Effect of host resistance on the feeding and reproductive performance of *Haemaphysalis punctata* and *Ixodes ricinus* ticks 238
Effect of hypocalcaemia on blood flow distribution in sheep 92
Effect of infectious stunting syndrome on the immunocompetence of broilers 339
Effects of intravenously administered tetra-thiomolybdate on the distribution of copper in the liver and kidney of copper loaded sheep: a histochemical study 154
Effects of megestrol acetate on glucose tolerance and growth hormone secretion in the cat 354
Efficacy of a bivalent vaccine against Marek's disease 145
Eimeria species in lambs by an enzyme-linked immunosorbent assay, Demonstration of antibodies to 119
Ejaculate characteristics of sheep infected with *Trypanosoma brucei* and *T vivax*: changes caused by treatment with diminazene aceturate 1
Encephalic ventricles in the Friesian cow: a new surgical approach, Access to the 264
Escherichia coli strains associated with canine urinary tract infections, Characterisation of 404

Fading puppy complex, Lung surfactant composition in puppies dying of 113
Fasciola gigantica antigens, Serodiagnosis of fascioliasis in buffaloes by immunoprecipitation using adult 130
Fascioliasis in buffaloes by immunoprecipitation using adult *Fasciola gigantica* antigens, Serodiagnosis of 130
Felid herpesvirus 1 infected cells in vitro, Antibody and complement mediated lysis of 307
Femoral head abnormalities in broilers, Observations on 17
Flow cytometry and its applications in veterinary medicine 131
Fluid accumulation in the ligated intestinal loop and histopathological changes of the intestinal mucosa caused by *Clostridium botulinum* C2 toxin in the pheasant and chicken 349
Fluorometric DNA quantitative assay using 4′6-diamidine-2-phenylindole for the evaluation of lymphocyte blastogenic response, Application of the 331
Further studies on the response to transplanted adult *Ostertagia ostertagi* in calves 29

Haemaphysalis punctata and *Ixodes ricinus* ticks, Effect of host resistance on the feeding and reproductive performance of 238
Haemaphysalis punctata infestation on growing lambs and rabbits, Effect of 244
Haematological studies on Indian Pashmina goats 124
Haemonchus contortus in sheep, Changes in LC50 in an in vitro egg development assay during the patent period of 413
Haemophilus pleuropneumonia, Sequential study of lesion development in experimental 204
Haemophilus pleuropneumoniae serotypes 2 and 3 in the pig, Comparative virulence of some English strains of 187
Herpesvirus and Marek's disease virus, Effect of acyclovir on the replication of turkey 334
Histochemical study of the accumulation of copper in the liver of sheep 73
Hypnotic in dogs, R 8110, a new short-acting 200
Hypocalcaemia on blood flow distribution in sheep, Effect of 92

Incidence of rotavirus in beef herds in Argentina 257
Infection of African buffalo (*Syncerus caffer*) and cattle with *Theileria parva lawrencei* after serial passage in cattle 326
Influence of a deficient supply of magnesium during the dry period on the rate of calcium mobilisation by dairy cows at parturition 101
Interleukin-2 preparations, Cross reactions between porcine, bovine and ovine 252
Intranasal vaccination of pigs against Aujeszky's disease: comparison with one or two doses of attenuated vaccines in pigs with high maternal antibody titres 12
Isolation of a Thy-1-like glycoprotein from sheep brain and its distribution in ovine tissues 358
Ixodes ricinus ticks, Effect of host resistance on the feeding and reproductive performance of *Haemaphysalis punctata* and 238

Ketamine in the horse, Pharmacokinetics of intravenously administered 162
Khaki Campbell ducklings, Ochratoxicosis A in young 395

Laboratory method for studying tooth mobility of the mandibular central incisor of the sheep, A 61
Laryngotracheitis, Demonstration in live chickens of the carrier state in infectious 407

LC50 in an in vitro egg development assay during the patent period of *Haemonchus contortus* in sheep, Changes in 413
Local humoral and cellular responses in Aujeszky's disease virus infection in pigs 170
Lung, Deposition and clearance of radiolabelled monodisperse polystyrene spheres in the calf 82
Lung surfactant composition in puppies dying of fading puppy complex 113
Lymphocyte blastogenic response, Application of the fluorometric DNA quantative assay using 4'6-diamidine-2-phenylindole for the evaluation of 331

Magnesium during the dry period on the rate of calcium mobilisation by dairy cows at parturition, Influence of a deficient supply of 101
Marek's disease, Efficacy of a bivalent vaccine against 145
Marek's disease virus, Effect of acyclovir on the replication of turkey herpesvirus and 334
Measurement of volatile fatty acid production rates in sheep given roughage 47
Megestrol acetate on glucose tolerance and growth hormone secretion in the cat, Effects of 354
Mycobacterium paratuberculosis after absorption of serum with *M phlei*, Analysis by ELISA and Western blotting of antibody reactivities in cattle infected with 140
Mycobacterium phlei, Analysis by ELISA and Western blotting of antibody reactivities in cattle infected with *Mycobacterium paratuberculosis* after absorption of serum with 140
Mycoplasma (F-38) recognised by antibodies from goats with contagious pleuropneumonia, Composition of a polysaccharide from 175

Neutrophils on a discontinuous Percoll density gradient, Rapid, single-step isolation of equine 411

Observations on femoral head abnormalities in broilers 17
Observations on mouse-infective stocks of *Cowdria ruminantium*: attempts to demonstrate persistence of the organism in mice immune to the Kwanyanga stock 65
Observations on the pathogenesis of experimental *Salmonella typhimurium* infection in chickens 194
Ochratoxicosis A in young Khaki Campbell ducklings 395
Ochratoxicosis in quail (*Coturnix coturnix japonica*), Ultrastructural study of 228
Ocular squamous cell carcinoma: superoxide dismutase and catalase levels, Bovine 68
Ostertagia ostertagi in calves, Further studies on the response to transplant adult 29
Overwintering of non-migrating strongyles in donkeys in the highveld of Zimbabwe 262

Pashmina goats, Haematological studies on Indian 124
Pasteurella haemolytica in the calf respiratory tract after an abrupt change in climate, Proliferation of 179
Pasteurella multocida, Purification of three fragments of the dermonecrotic toxin from 232
Pathology of concanavalin A-induced cutaneous reaction in the chicken 365
Pathophysiological and parasitological studies on *Cooperia oncophora* infections in calves 373
Percoll density gradient, Rapid, single-step isolation of equine neutrophils on a discontinuous 411
Pharmacokinetics of intravenously administered ketamine in the horse 162
Phenothiazine tranquillisers in horses, Development of an enzyme-linked immunosorbent assay for the detection of 415
Polysaccharide from mycoplasma (F-38) recognised by antibodies from goats with contagious pleuropneumonia, Composition of a 175
Polystyrene spheres in the calf lung, Deposition and clearance of radiolabelled monodisperse 82
Proliferation of *Pasteurella haemolytica* in the calf respiratory tract after an abrupt change in climate 179
Purification of three fragments of the dermonecrotic toxin from *Pasteurella multocida* 232

R 8110, a new short-acting hypnotic in dogs 200
Radioimmunoassay of thromboxane B_2 in horse plasma 150
Rapid, single-step isolation of equine neutrophils on a discontinuous Percoll density gradient 411
Red blood cell volume of the pig fetus 7
Rotavirus in beef herds in Argentina, Incidence of 257
Roughage, Measurement of volatile fatty acid production rates in sheep given 47

Quail (*Coturnix corturnix japonica*), Ultrastructural study of ochratoxicosis in 228

Safety and effectiveness of cupric oxide particles for increasing liver copper stores in cattle 224
Safety and effectiveness of cupric oxide particles for increasing liver copper stores in sheep 219
Salmonella infection in calves, Effect of bovine virus diarrhoea-mucosal disease virus on 213
Salmonella typhimurium infection in chickens, Observations on the pathogenesis of experimental 194
Sequential study of lesion development in experimental haemophilus pleuropneumonia 204
Serodiagnosis of fascioliasis in buffaloes by immunoprecipitation using adult *Fasciola gigantica* antigens 130
Serum lactate dehydrogenase: clinical significance of alterations in its activity in lambs infected with *Dictyocaulus filaria* 127
Single vaccine for the control of capripox infection in sheep and goats, A 53
Strongyles in donkeys in the highveld of Zimbabwe, Overwintering of non-migrating 262
Stunting syndrome on the immunocompetence of broilers, Effect of infectious 339
Superoxide dismutase and catalase levels, Bovine ocular squamous cell carcinoma 68

Tetra-thiomolybdate on the distribution of copper in the liver and kidney of copper loaded sheep: a histochemical study 154

Theileria parva lawrencei after serial passage in cattle, Infection of African buffalo (*Syncerus caffer*) and cattle with 326

Thromboxane B_2 in horse plasma, Radioimmunoassay of 150

Thy-1-like glycoprotein from sheep brain and its distribution in ovine tissues, Isolation of a 358

Thyroid hormones, cholesterol and triglyceride levels in the camel 418

Tooth mobility of the mandibular central incisor of the sheep, A laboratory method for studying 61

Trypanosoma brucei and *T vivax*: changes caused by treatment with diminazene aceturate, Ejaculate characteristics of sheep infected with 1

Trypanosoma vivax: changes caused by treatment with diminazene aceturate, Ejaculate characteristics of sheep infected with *Trypanosome brucei* and 1

Ultrastructural study of ochratoxicosis in quail (*Coturnix coturnix japonica*) 228

Virulence of bluetongue virus for British sheep 24
